Quite recently, Tankoa Yachts collaborated with the Rome-based luxury design company, Exclusiva Design, to create a masterful luxury yacht concept, the Progetto Bolide Concept. The 72-meter superyacht is a true work of art inspired by the 20th-century movement of futurism.

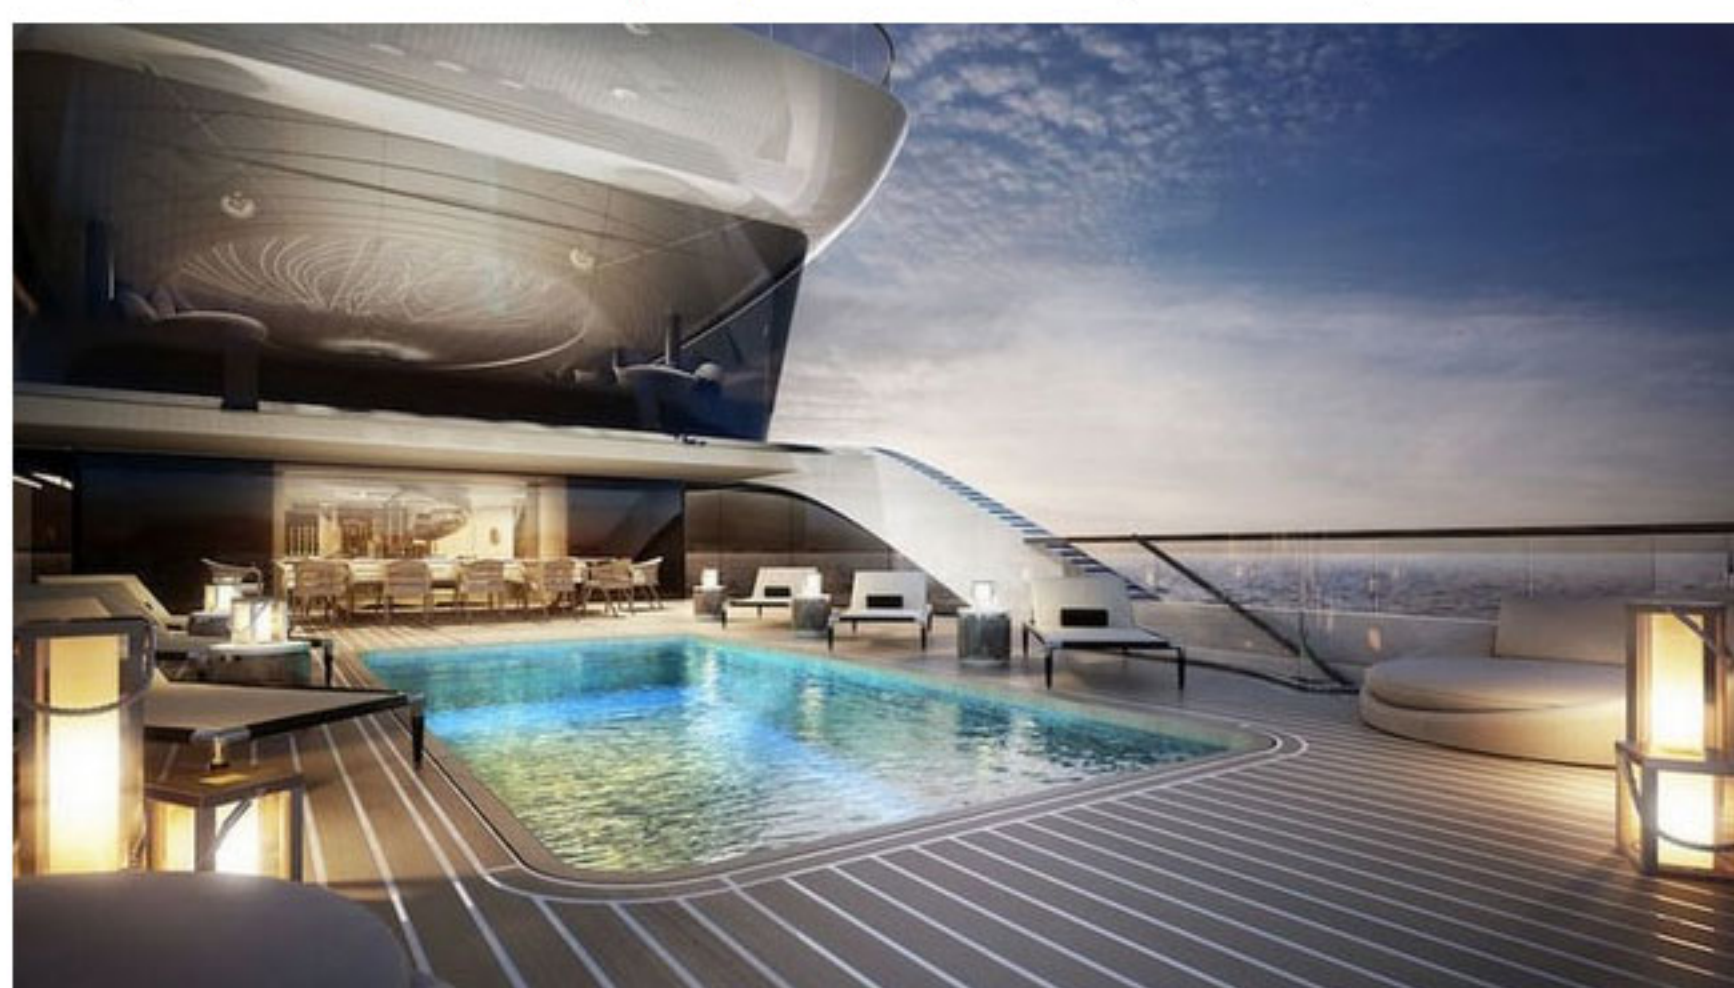

Innovative and futuristic lines as well as the cutting edge of the 20th-century Italian art highlight this stunning vessel. She features a high-tech wine cellar with its own integrated wi-fi system.

"These two companies come from completely different fields, yet they managed to bring this incredible project to life, one that comes highly personalized - finalized and designed exclusively with the client in mind. Looking like a work of art in motion, this new Tankoa wonder seems ready to conquer the seas and win over your heart in the process."

This yacht features a massive suite, spread across two decks, with a drawing room, gym and spa, and a master bedroom that has a skylight. Progetto Bolide took two years of research, design and development to perfect aiming to introduce a new meaning to the enticing world of luxury yachting.

The remarkable motor yacht is going to be powered by twin CAT engines and will be able to reach 18 knots and cruise at 12.5 knots.
