Tankoa Yachts presents a yacht of 58 meters

The company Tankoa Yachts in collaboration with renowned design studio Francesco Paszkowski presented the concept of the fastest yachts of today. Yachts of 58 meters length should be able to achieve a speed of 30 knots.

The yacht will be forced with a strong jet propulsion systems with Kamewa and operated by three MTU engines each with 2,683 horsepower.

This luxury megayacht is designed to accomodate 10 guests in her glamorous areas. Guests will have all the supporting systems for the attractions on the water with which they will be able to let go in sporting and recreational games.
