Entirely handcrafted in Italy, the S621 Tankoa confirms considerably innovative stance in the super and mega yacht sector and states a new benchmark in terms of elegance and living spaces offer.

"When we started designing the model S621, together with Francesco Paszkowski Design Studio," says Tankoa Yachts President Guido Orsi. "We were looking for a new kind of yacht. At the end of the journey, we reached something we consider unique."

"New Tankoa S621 is inspired by the first two yachts of the shipyard – M/Y 69m *Suerte* and Tankoa S501 – laying the foundation of the contemporary era of Tankoa Yachts," adds Paszkowski. "To the first inspirations, the new 62m adds and develops new distinctive features in order to create a yacht where the shipyard's signature is immediately recognisable. While the lines of the aft and those of the bow remind Tankoa S501 and the shape of the superstructure recalls *Suerte*, in the project of the 62m, the windows become larger to enhance light of the interiors while the superstructure becomes even more rigorous."

In a 62-metre yacht, the designer conceived harmonious volumes characterised by the extended aft, as big as in much larger yachts, with a huge beach club, an elegant lounge and a wonderful infinity pool.

Technical specifications of S621:

Builder: Tankoa Shipyard
Naval Architecture: Professor Vincenzo Ruggiero
Concept & Exterior Designer: Francesco Paszkowski Design
Interior Design: Francesco Paszkowski/Margherita Casprini
Hull type: Twin Propeller Motor Yacht
Hull material: High resistance steel
Superstructure: Light alloy superstructure (5083)
Classification: Lloyds + MCA

Dimensions

Length: overall 62m (203,41ft)
Beam: 10,40 m (34,12ft)
Draft: full loaded 2.95m (9,67ft)
GRT: 1.100GT
Displacement: max - 900 tons
Fuel capacity: 120,000 M3

Propulsion System

Engines: Caterpillar 3512 - 2 x 1.38Kw@1,600rpm IMO 3 EPA 2
Propulsion: Twin shaft propellers (five blades)
Generators: 3 x 175kW + 1 x 80kW emergency generator
Bow: thruster 150kW
Stabilizers: + Zero Speed Vosper Naiad
Max Speed @ half load: 16,5Kn
Cruise Speed: 14Kn
Range: @ 12Kn 4,500nm
