Tankoa Reveal 58 Metre Open Superyacht Concept

Italian yacht building yard [Tankoa Yachts](#) have revealed their latest superyacht concept, the 58 metre Open. Tankoa teamed up with Francesco Paszkowski to produce a fast, sporty superyacht that provides comfort and luxury.

Powered by three MTU engines, providing 2,683hp and combined with the lightweight aluminium alloy construction it is expected the motor yacht will have a top speed of 30 knots and make the yacht their fastest yet.

Tankoa Yachts said of the 58 Open, "From now on, luxury cruising doesn't mean giving up the excitement of running fast and loose."

There is plenty of room for outdoor relaxation on board this sub-

500GT luxury yacht, with two sprawling aft decks and the open superyacht sundeck, which features a central bar and an alfresco dining area for up to ten people. The fore deck also features shaded seating provided with a pop-up hardtop, see image right.
